

# Divine Worship

Dan Smith  
Senior Pastor

**This modern traditional, grace-oriented, multicultural and multi-generational service inspires, challenges, stirs, and warms . . . definitely does not bore! Every worship service is planned with something for everybody in mind, so that multi-generational and multi-cultural families can love worshipping together! And a blend of praise and traditional music, graphics, drama, and contemporary stories are channels to make that “old, old story” come alive in our daily lives and be as fresh and real as your latest cell phone text message!**
